STRUT  
ASSEMBLY**

**READY TO  
INSTALL**

**WORLD PARTS®**  
**COMPLETE STRUT ASSEMBLY**

**BENEFITS OF THE WORLDPARTS®  
 STRUT ASSEMBLY**

- All-in-One: No chance of missing a part.
- Quicker: The fully integrated design helps reduce installation time when compared to a bare strut assembly.
- Easier to Install: No need for a spring compressor.
- Precision Made: Designed to meet the O.E.M specifications for a perfect fit every time.
- Tested: Compression and Strength tested to OEM performance specifications.

**DESIGNED AND TESTED TO MEET  
 O.E.M SPECIFICATIONS**

This product is engineered to meet O.E.M. quality standards. All components are designed and calibrated to match form, fit and function for each vehicle's application in order to deliver the original ride and feel.

**A Proven Value Alternative to OE Replacement Parts.**

**REINFORCED BRACKETS**  
 Tested for a proven performance.

**STRUT**  
 High quality seals, mirror-finished, hard-chrome piston rod, and oil.

**LOWER ISOLATOR**  
 Designed to optimize the handling experience unique to each vehicle profile by maintaining spring stability.

**BOOT KIT & BUMPER**  
 Bumper molded from urethane rubber in order to reduce road shock and noise.

**COIL SPRING**  
 Tested for OE compression levels and coated for optimal corrosion resistance.

**UPPER ISOLATOR**  
 Maintains spring stability.

**UPPER SPRING SEAT**  
 Designed to absorb damaging shock from repeated impacts.

**BEARING PLATE**  
 Endurance tested to ensure optimal performance.

**DESIGNED TO SIMPLIFY THE INSTALLATION PROCESS, THE WORLDPARTS® COMPLETE STRUT ASSEMBLY INCLUDES ALL THE COMPONENTS REQUIRED FOR STRUT REPLACEMENT IN A SINGLE, FULLY ASSEMBLED UNIT.**
